KAIWALYA CHARUDATT GAIDHANI

E-MAIL ID : kaiwalya2509@gmail.com

Architecture fascinates me, as it blends creativity, art, and technology, which are shaped by our life and culture. As an Architect, I'm passionate about designing functional, sustainable, and visually appealing designs that add value to people's lives. My experience has provided valuable insights into how architecture is a medium of expression and it is more than design spaces as it requires a strong sense of commitment and responsibility. During my work, I gained experience with BIM by learning and using Archicad.

I am passionate about learning and growing in profession, and I'm eager to expand my skills and knowledge.

TUSHAR DESAI ASSOCIATES

INTERIORS
ARCHITECTURE

PRINCIPLE ARCHITECT : AR. TUSHAR DESAI

ASSOCIATES : AR. CHAULA TRIVEDI , AR. ABIJEET BHONGE

Tushar Desai Associates is located in Mumbai ,it is spear headed by Ar. Tushar Desai. The team of Tushar Desai Associates has been associated with a number of diverse projects in and around Mumbai. The firm is involved in designing structures with strong defination , and designing of interior spaces.

During my tenure at Tushar Desai Associates as a junior architect, I gained valuable experience working on architecture and interior design projects. This role provided me with insights into various aspects of the field. I was involved in design detailing, which allowed me to deepen my understanding of MEP services. I coordinated with the respective consultants. Additionally, I worked on the design's look and feel and finalised finishing materials along with their specific details. I also worked closely with site managers to ensure the smooth execution of work.

4TH FLOOR FURNITURE LAYOUT

CLIENT : WIPRO

SITE LOCATION: AIROLI (MINDSPACE), NAVI MUMBAI

AREA: 4192.20 SQ.M

PROJECT DESCRIPTION : The project aims to create a workplace for WIPRO. It focuses on designing ODC zones based on each department's needs, incorporating designated cabins, discussion rooms, training rooms, a cafeteria, and a board room with an executive zone.

The project provided me exposure from design, design detailing, to furniture design and details.

TEAM: Ar.Tushar Desai - Principle Architect
Ar Dharmik Shah - Senior Architect
Ar.Poonam Goswami - Senior Architect
Ar, Kaiwalya Gaidhani - Junior Architect

MY SCOPE OF WORK :

1. Worked on layouts ,over all look and feel of the space and material finalization.
2. Worked on MEP layouts, details and coordinated with respective consultant/ vendors.
3. Preparing GFC's and finishing drawings.
4. Site coordination and site visits for smooth execution of the project.

COLAB AREA - INITIAL OPTION

WIPRO OFFICE

THEME /LOOK AND FEEL : The primary intention was to create an employee-friendly workspace. The main theme was to showcase the fabric story of Maharashtra through the design. On the fourth floor, the pattern was inspired by the 'Solapuri Chadder.' This pattern was then applied to glass film, acoustic panels, and decorative flooring.

CLIENT : ROHAN APURVA PAREKH GROUP (RAPG)

SITE LOCATION: CHEMBUR , MUMBAI

AREA: 250.5 SQ.M

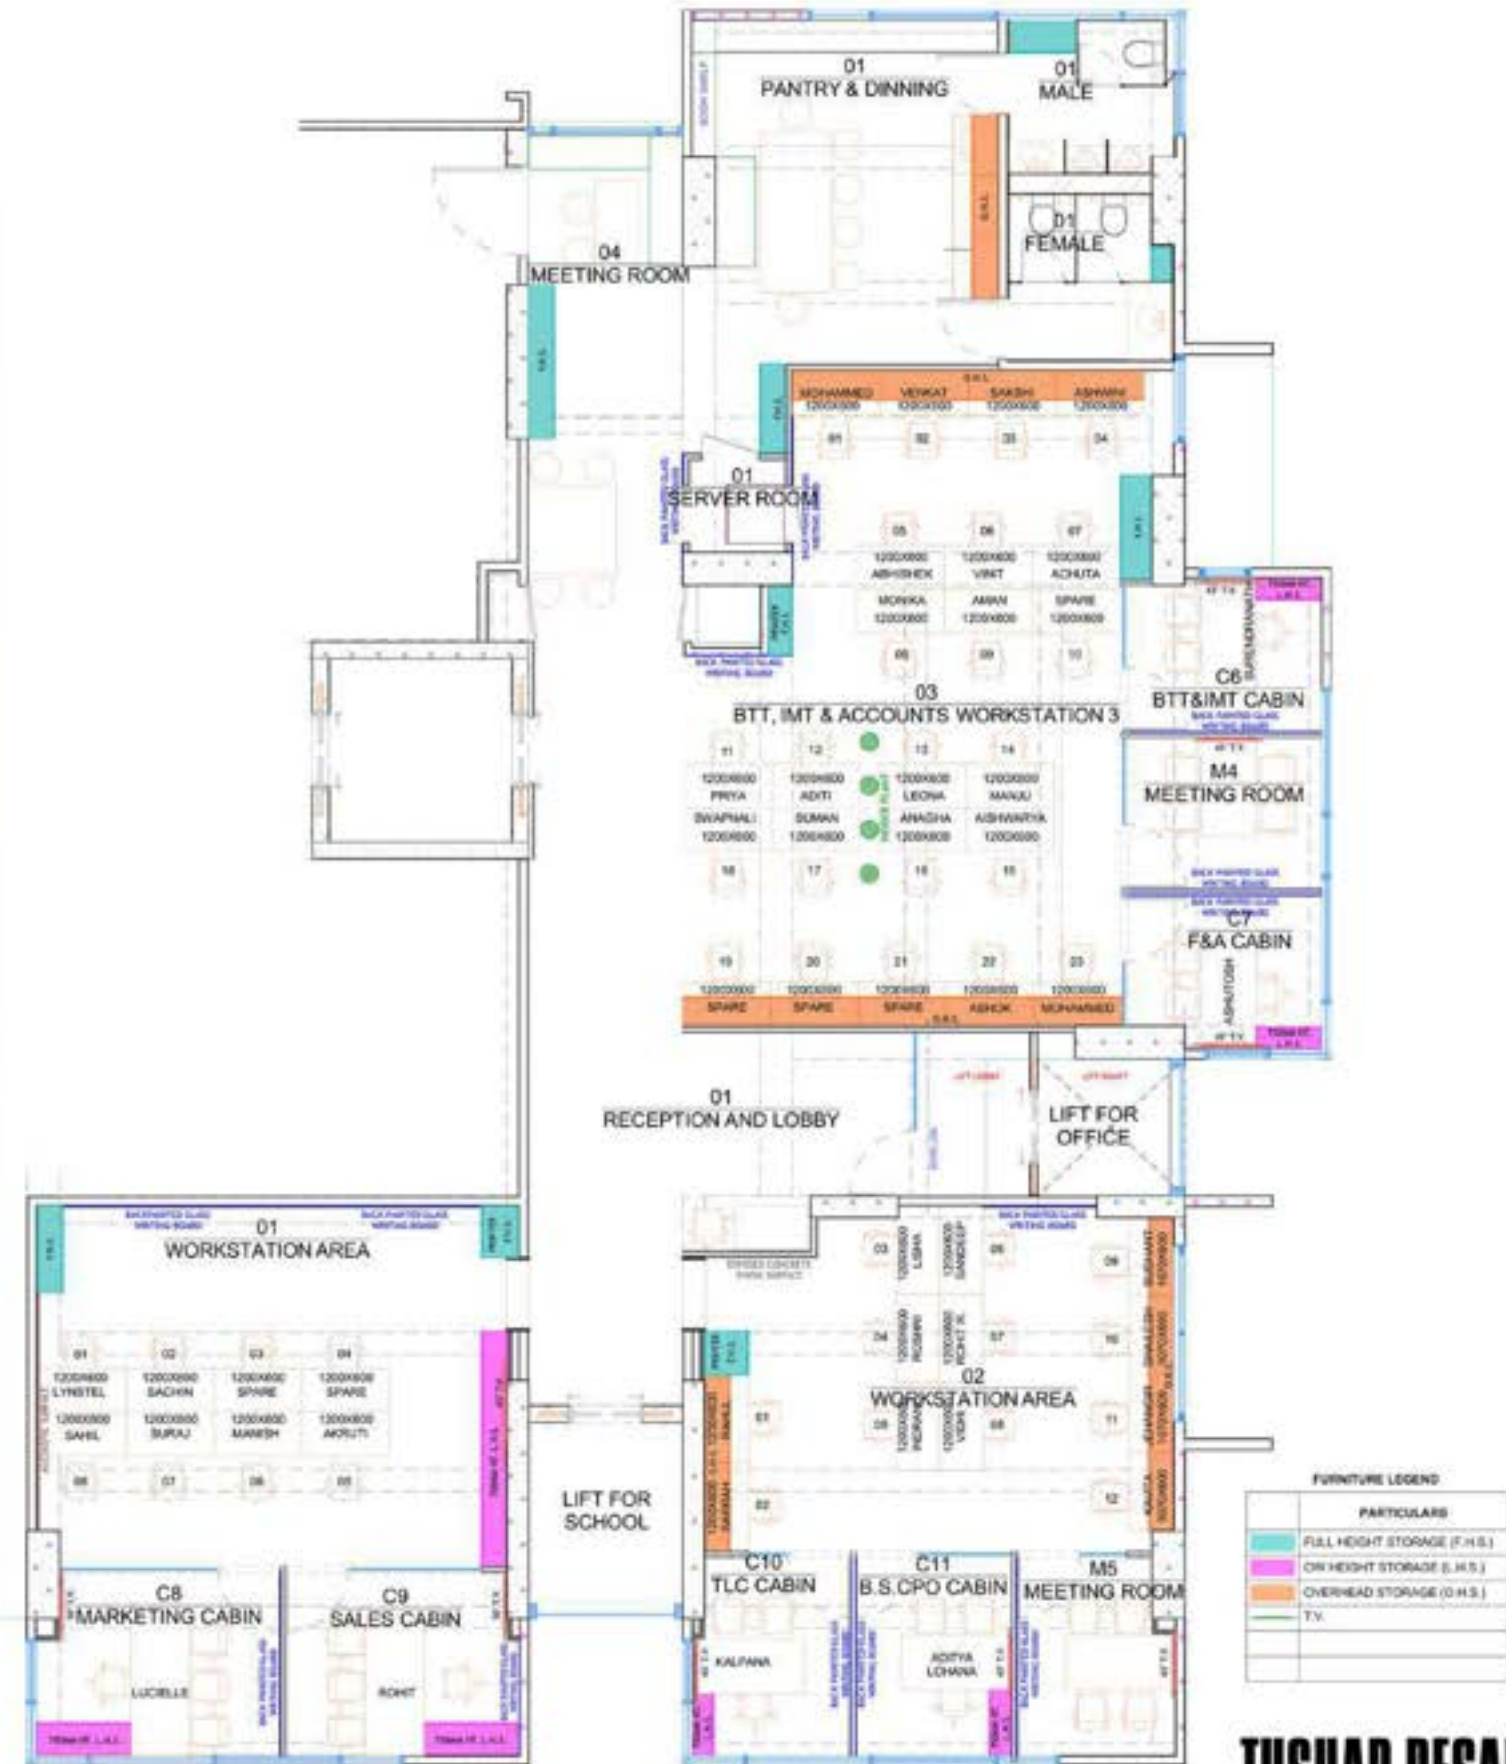

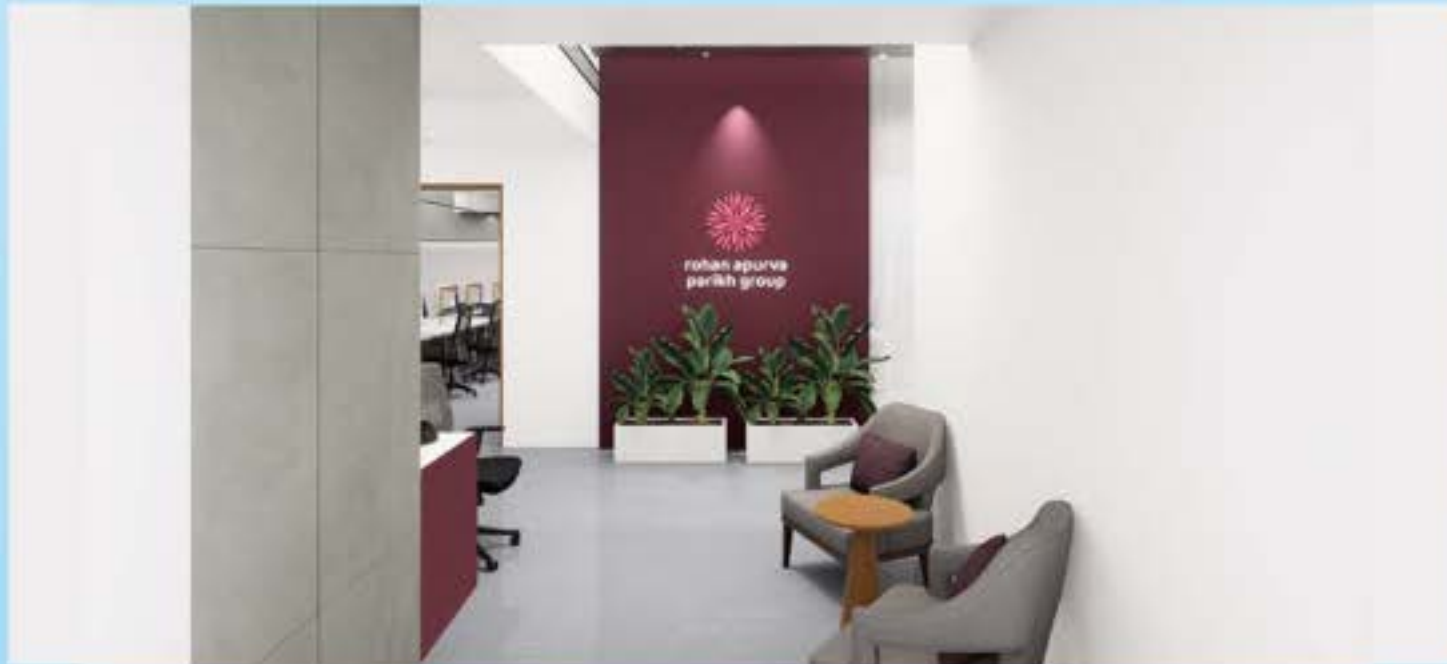

PROJECT DESCRIPTION : The project aims to create a workplace for RAPG employees. It focuses on designing workstation zones according to each department's needs, incorporating designated cabins and meeting rooms. Since the office was part of a school building, this specific intervention was to convert the school floor into an office. The spaces were inspired by modern style interiors with exposed concrete finishes and wooden textured surfaces. All the finishing materials were selected accordingly to all the necessary details required.

The project provided me exposure from design, design detailing, to furniture design and details.

TEAM: Ar.Tushar Desai - Principle Architect
Ar Dharmik Shah - Senior Architect
Ar, Kaiwalya Gaidhani - Junior Architect

MY SCOPE OF WORK :

1. Worked on layouts ,over all look and feel of the space and material finalization.
2. Worked on MEP layouts, details and coordinated with respective consultant/ vendors.
3. Preparing GFC's and finishing drawings.
4. Site coordination and site visits for smooth execution of the project.

OFFICE FURNITURE LAYOUT

SWITCHBOARD LAYOUT

RAPG OFFICE

THEME /LOOK AND FEEL : The overall aesthetic was inspired by a modern interior style featuring exposed concrete finishes and wooden-textured furnishings, reflecting the existing classrooms' elements, as per clients demand.

MODELLING AND MATERIAL : Ar.Kaiwalya Gaidhani
3D RENDER : Krunal Mistry

VAASTU VIDHAAN PROJECTS

ARCHITECTURE • HERITAGE CONSERVATION • INTERIOR SPACES

TEAM LEADS : AR. RAHUL .V. CHEMBURKAR AR. BHALCHANDRA .M. TOPLE

Vaastu Vidhaan Project is located in Mumbai and Goa and it is spear headed by Ar. Bhalchandra Tople and Ar. Rahul Chemburkar. Since 1998, the team of Vaastu Vidhaan has been associated with a number of diverse projects in and around Mumbai and in prominent locations across the country. The firm is involved in designing structures with strong definition ,designing of interior spaces,restoration of heritage building and providing value added services for cultural enhancement..

During my internship period I got to know about the specialised architectural field which is “ Heritage Conservation”. I work on many of conservation projects in Mumbai and Goa some of which I have added in this portfolio. I also got chance to on Temple Architecture Project which is ongoing in Goa.

KANEKAR KULDAIVAT NYAS TEMPLE

SHREE SHANTA DURGA TEMPLE

RESTORATION PROJECTS

DEULWADI

SHREE ANANT TEMPLE

MUMBAI PYAAVS

KANEKAR KULDAIVAT NAYAS TEMPLE.

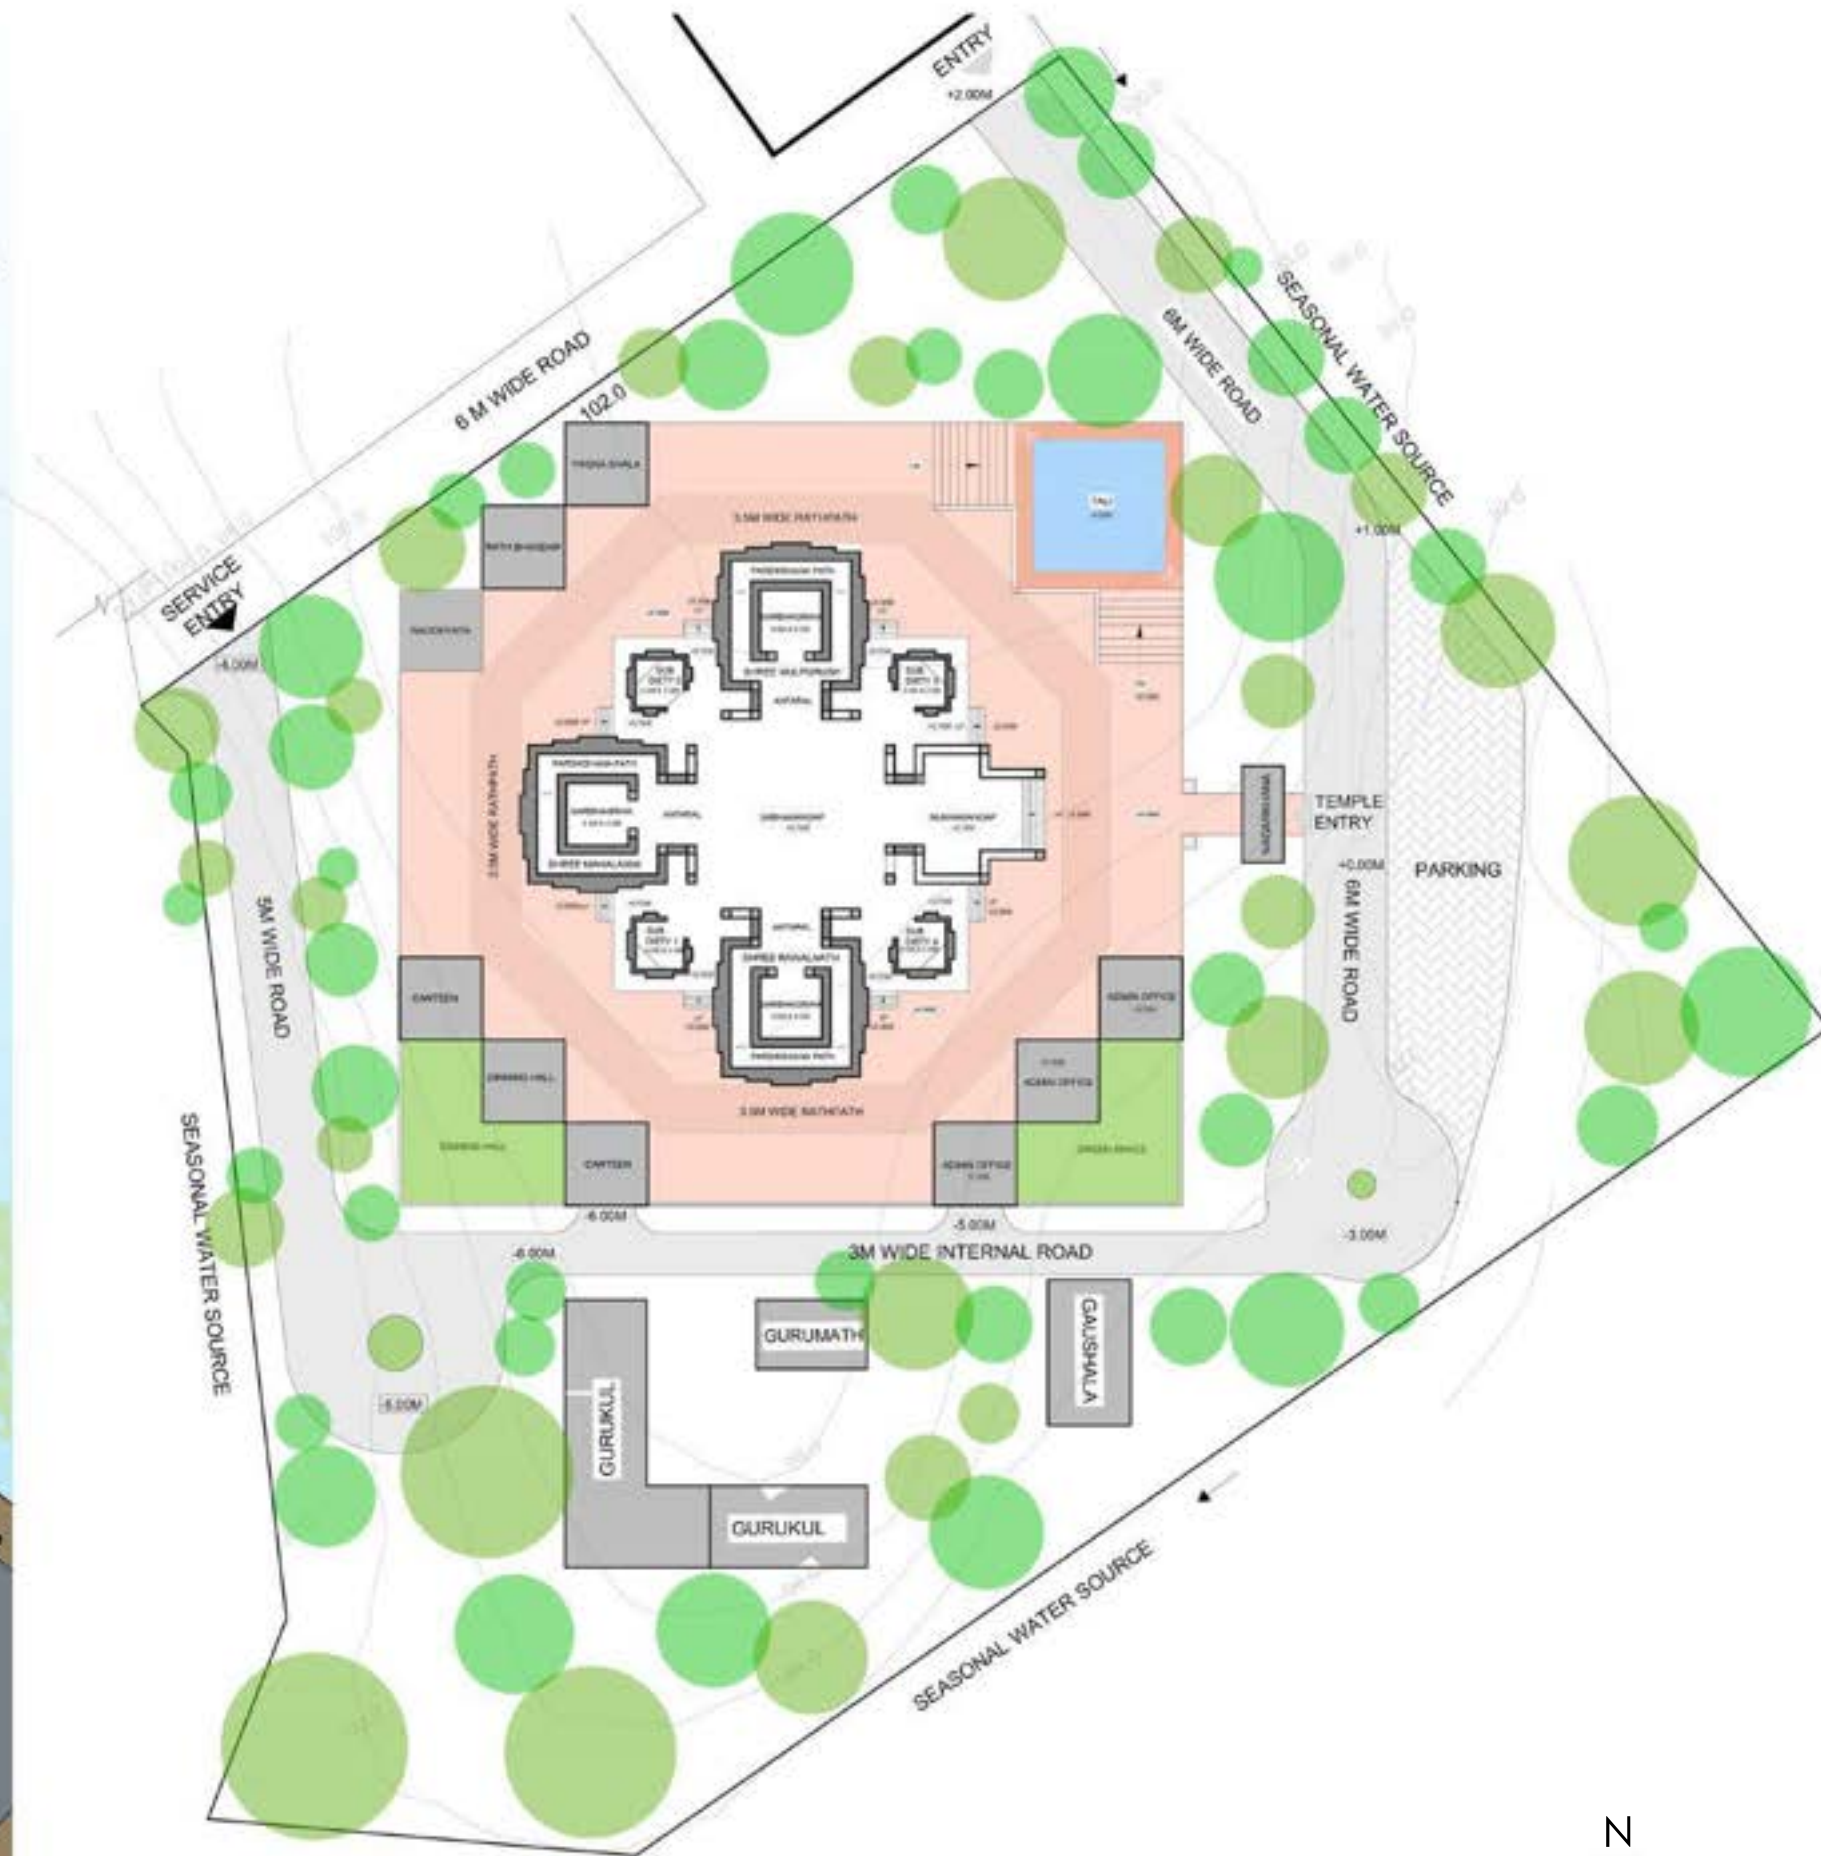

CLIENT : KANEKAR KULDAIVAT NYAS TEMPLE.

SITE LOCATION: PONDA , GOA

PROJECT DESCRIPTION : The project aims to design an temple complex located in Ponda, Goa for Kanekar Community. The main temple will be dedicated to Shree Mahalaxmi and Panchayatan Devta temple and Rwalnath,Mulpurush temple are to be prososed . Other than temple other subsidiary spaces like admin office , bhojanshala , yagnashala , gurukul , gaushala are proposed. The temple derives its form from typical goan temple architecture and will respond to its context.

SCOPE OF WORK :

1. Presentation Drawings for the client meetings.
2. Preparing 3D presentation and study model for the temple complex.

SITE PLAN - FIRST CLIENT MEETING

3D PRESENTATION MODEL

SITE PLAN - SECOND CLIENT MEETING

STUDY MODEL

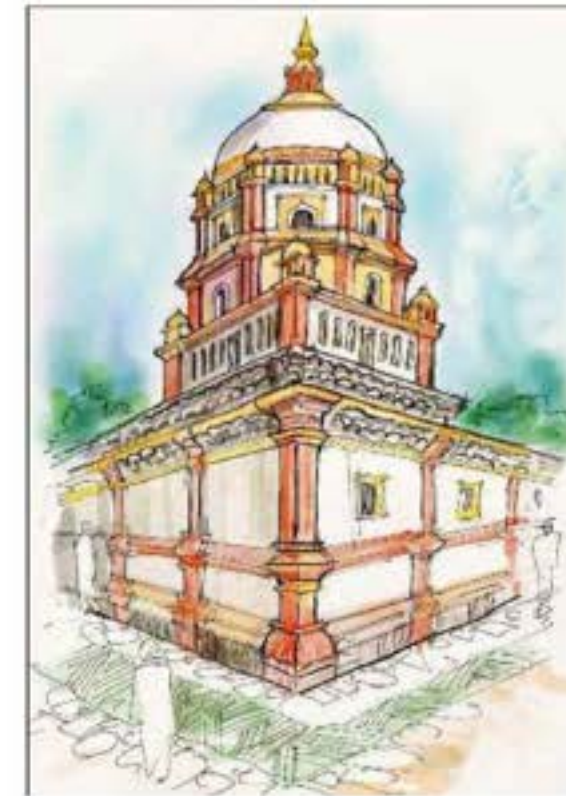

SHREE SANTADURGA TEMPLE

CLIENT : SHREE SHANTADURGA DEVASTHAN

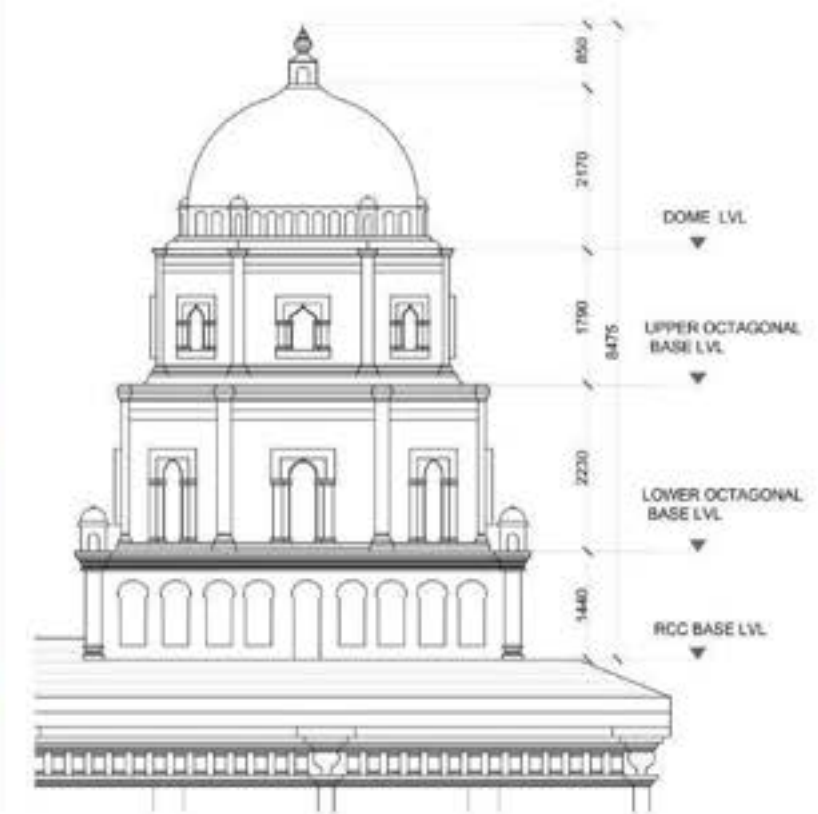

SITE LOCATION: DHARGAL , GOA

PROJECT DESCRIPTION : The project focuses on the redesign the temple 'Shikhar' based on the study of the typical Goan temple architecture. It is to reinstate the original charecter of the temple .The restoration of the temple and temple complex will be also undertaken in future. The project also aims to revive the traditional 'kaavi' art present in the temple and temple premises.

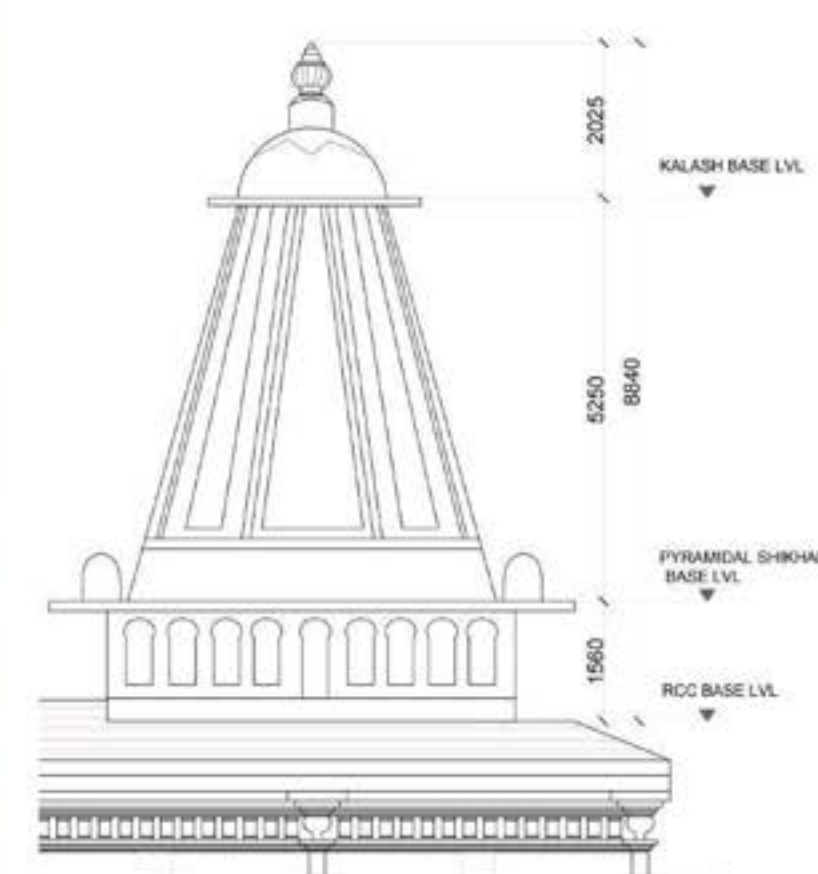

SCOPE OF WORK : Preparing presentation drawing for the design of the shikhar.

CLIENT : BHULINGESHWAR TEMPLE TRUST

SITE LOCATION : CHEMBUR , MUMBAI

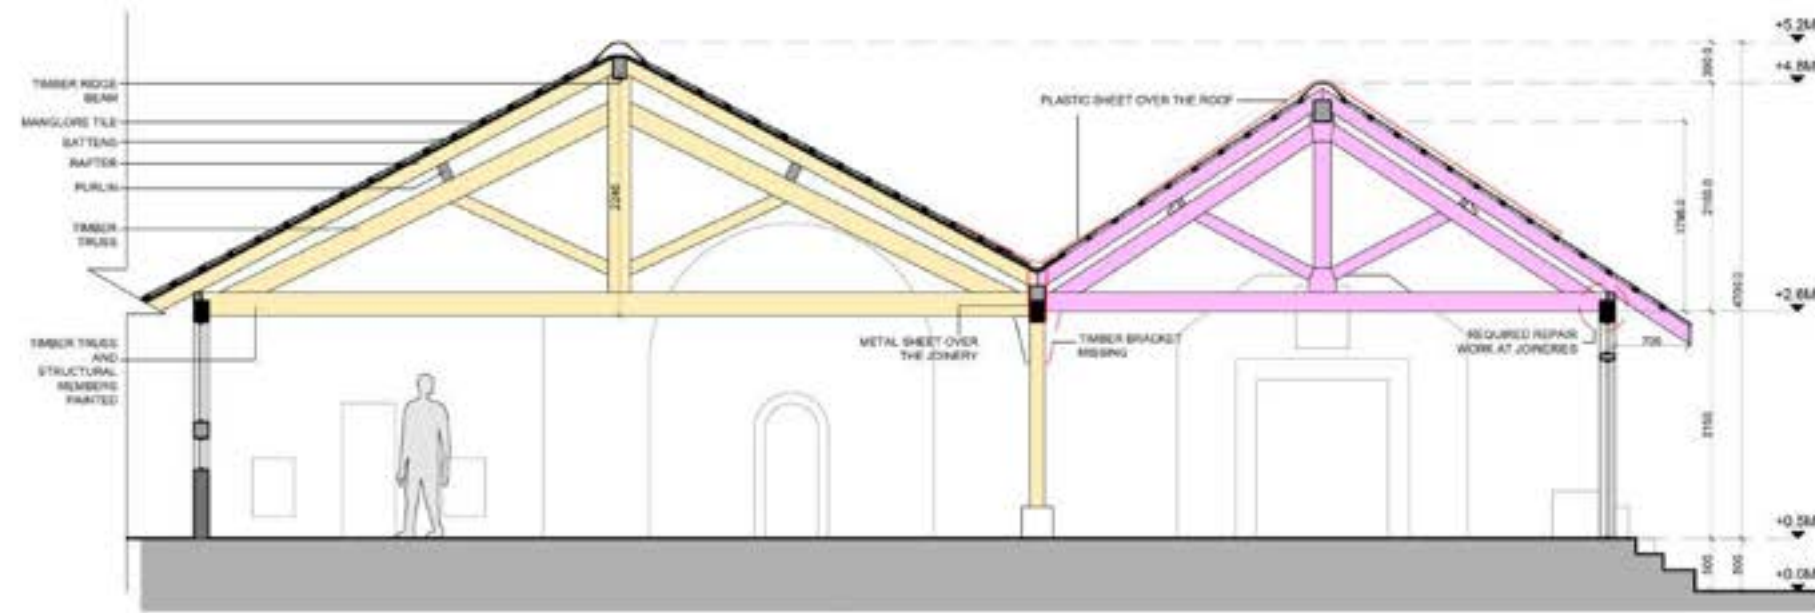

PROJECT DISCRIPTION: The project focuses on the restoration and reinstating the original charecter of the temples present in this heritage temple complex. The Temple Complex at Deulwadi, Chembur belongs to a coastal typology of temples, typically found near Mumbai. The temple complex has an important local significance as a beautiful community space. For initial phase roof of ram mandir is to be restored.

SCOPE OF WORK:

1. Photographic Documentation of Ram Mandir in the Deulwadi.
2. Preparation of Measured Drawing of Ram Mandir.
3. Preparation of presentation for MHCC.

ANANT TEMPLE

CLIENT : SHREE ANANT DEVASTHAN TRUST

SITE LOCATION : SAVOI VEREM , GOA

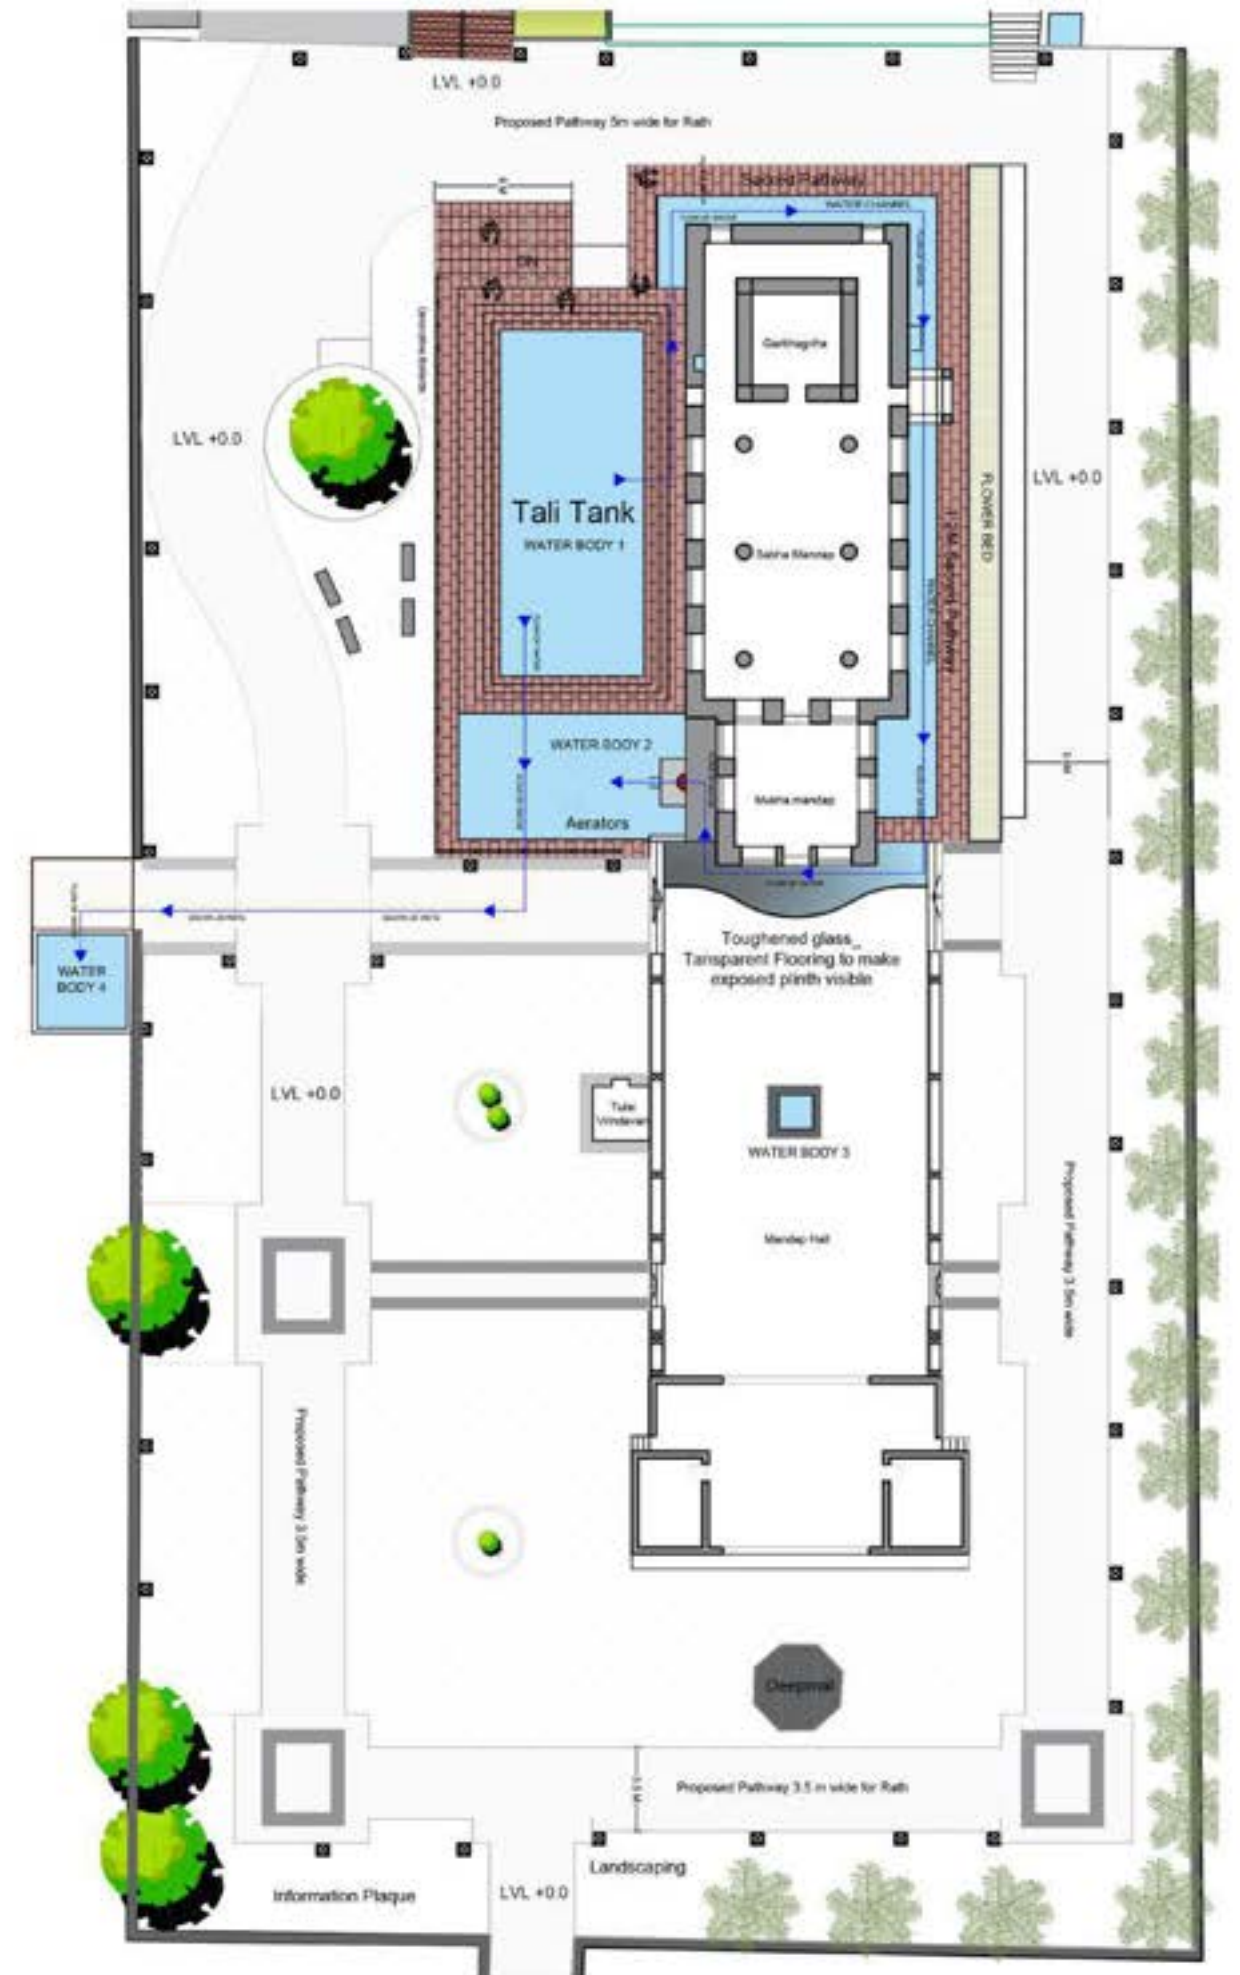

PROJECT DISCRIPTION: The project focuses on the restoration and reinstating the original charecter of the temples and its surrounding waterbodies. The temple belongs to typical temple architecture found in Goa. In the first phase restoration of the temple roof and water bodies is to be undertaken . Currently roof work is completed and restoration of surrounding water are in progress

SCOPE OF WORK:

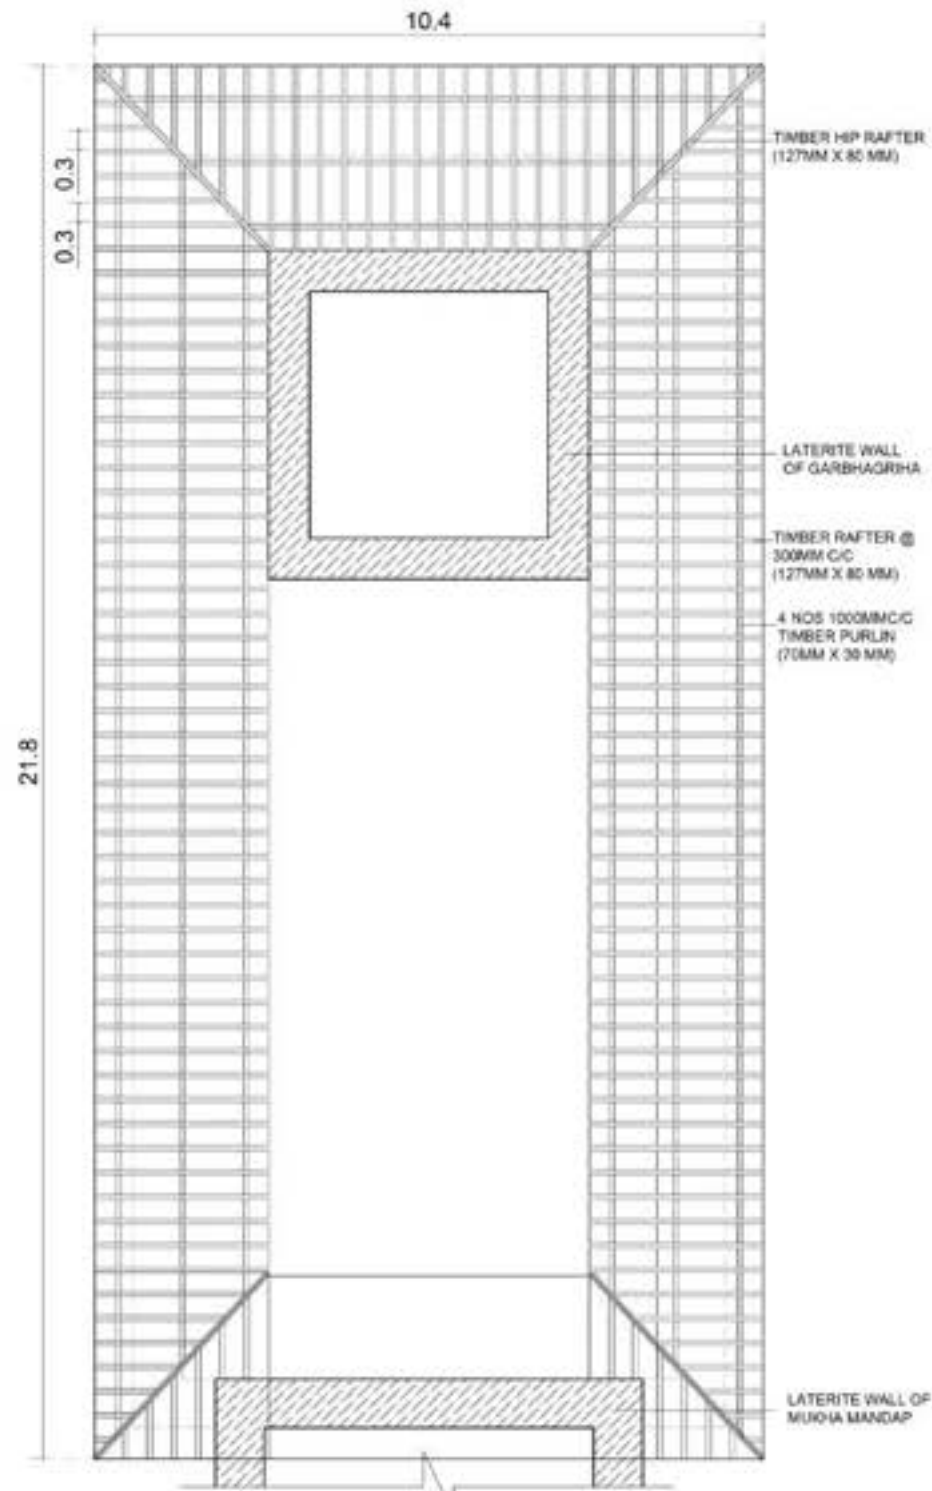

1. Presentation Drawing for the proposal for reinstating surrounding waterbodies
2. Preparing 3D model for the proposal of waterbody.
3. Documentation of the roof anf the ceiling of the temple.

ABOUT THE PROJECT :

CHANAKYA EXCELLENCE CENTER

The project was prepared for Ar.Rahul Chemburkar and Vaastu Vidhann Project. The project was to prepare the conceptual design and layout for Chanakya Excellence Center, based on the basic information and site plan provided by the firm.

SITE PLAN :

- Plot Area — Approx 45,600 sqm
- Built Area — Approx 11,000 sqm
- Landscaped Area — Approx 28,000 sqm
- Roads and Pathways — Approx 5000 sqm

ABOUT THE PROJECT :

The school is the place where the intellectual, physical, and aesthetic development of a student happens. The school is proposed in the emerging city of Palghar, where the school will be part of an rapidly developing urban center. The school is the place where the students are engaged in a variety of learning experiences. So the aim will be to create a school with a holistic learning environment. Where the students will experience a “joy of learning” and the teachers will experience a “joy of teaching”. Considering the development of the child, pedagogical practices across different stages and where the element of the built environment will also contribute and become an active part of the learning process. The proposed intervention is a School consisting of the following sections:

1. Pre-primary (Foundation Stage) – Nursery to Sr.KG
2. Primary (Preparatory Stage) – 1st to 5th,
3. Secondary (Middle and Secondary Stage) – 6th to 10th

BACKGROUND STUDY :

PEDAGOGY AND SPACE :

Pedagogy is the method and practice of teaching used in the classroom by teachers to help students learn. It also refers to the approach and techniques that teachers use to facilitate learning in the classroom. An effective approach to pedagogy in different school stages is based on understanding how children grow and learn in terms of physical, emotional, social ethical, and cognitive development. This approach aims to achieve curricular goals, competencies, and learning outcomes while also considering the holistic development of individuals. Pedagogy across different stages:

PRE-PRIMARY SECTION

Foundation Stage:

- A playful, interactive way of teaching where the students are engaged through enjoyable stories, toys, etc. Since the child in this stage engages majorly through senses.
- Creating rich learning experiences through art-craft, music, dance, and stories which will lead to cognitive development.
- Adequate outdoor experiences can be created.

PRIMARY SECTION

Preparatory Stage:

- An activity-based, playful, experimental, and interactive method of teaching will be expected at this stage keeping in mind the child's physical, and cognitive development.
- Promoting social participation through pair work, small group work as well as individual work.
- Promoting small hands-on experiments and outdoor activities associated.

Middle Stage:

- An instruction-based (lecture) teaching method with an opportunity to explore, and engage students through discussion.
- Promoting social participation through pair work, small group work as well as individual work.
- Demonstration-based learning must be promoted.
- Use of technology in teaching and learning.

SECONDARY SECTION

Secondary Stage:

- An instruction-based (lecture) teaching method with an opportunity to explore, and engage students through discussion and group conversations.
- Promoting children to self-learning and help others (peers) to learn better.
- Encouraging rigour in work and expression of their views.

Stage	Pedagogy	Classroom Arrangement
Foundation Stage	Play-based and nurturing caring relationship between teacher and children. Group-based learning with self-paced individual learning. Play and work-balanced learning.	A classroom that reflects freedom, where children can move freely and help to generate opportunities for engaging their natural curiosity and exploration.
Preparatory Stage	Activity-based and discovery-based methods in a formal classroom environment. Encouraging interaction and discussion. Self-paced individual learning should be focused on.	A classroom with balance between a formal environment and an arrangement that encourages movement and exploration. A setting encouraging student sitting and working in a group.
Middle Stage	Balance of direct instruction (lecture) and opportunity to explore. Focus on conceptual development, built on the prior knowledge base of the child.	A classroom with a formal environment supporting the teaching activity, with an opportunity to explore.
Secondary Stage	Use of Direct Instruction (lecture) with an opportunity to explore and engage in discussion. And promoting self-learning and helping others (peers) to learn.	A classroom with a formal environment supporting the teaching activity, with an opportunity to explore.

Stage	Standard	Pedagogy	Learning Landscape
Foundation Stage	Nursery to 2 nd	Play-based	An Informal Learning Landscape. With interactive spaces - supporting art, music, dance activities, playing activities, and small games based on the curriculum. Spaces supporting group and individual activities.
Preparatory Stage	3 rd to 5 th	Activity-based and discovery-based.	
Middle Stage	6 th to 8 th	Direct instruction (lecture) and opportunity to explore.	A Formal Learning Landscape. With spaces supporting group and individual learning, small breakout interaction spaces.
Secondary Stage	9 th - 10 th	Direct Instruction (lecture)	

ELEMENTS FOR CREATING BUILT ENVIRONMENT :

ELEMENTS	SPATIAL CHARACTERISTIC	DESCRIPTION
Floor	Expression of an Interactive Threshold	In a school, the floor can be a medium for the creation of interactive thresholds. It can be an element of communicating information in school, and become an element that influences learning.
	Medium of Visual Communication and Expression of Idea	
Wall	Territorial Demarcation	In a school, the wall can be a way to create diverse territories thus creating learning spaces of diverse nature. It is an element of communicating information and becoming an element that influences learning. Articulation of wall profiles can create comfortable personal spaces and influence the form.
	Medium of Visual Communication and Expression of Idea	
	As a medium to create comfortable personal spaces	
Roof	Form giver and Façade Modulator	In a school, the roof can become a space that can be utilized as an active learning space and can influence the activity happening. Creating an active learning space will lead to articulating the profile which will provide an identity. At the same time, it can be used to create interesting volume.
	Activity Influencer and Image Maker	
Stair	Step as an Interactive Threshold	In a school, the stairs can be an element that creates an interactive threshold as well as an interactive node when positioned in the interior. As well as it can medium to create interesting spaces.
	Step as an Interactive Node	
Door	Modulator of Space	In a school, the door can become a medium of creating an image of the school as well as about the class and the students of the class.
	Image Creator and Modulator of Façade	
Window	As Image creator and façade modulator	In a school, the window influences the space and becomes a crucial element that can provide a character to the space. Articulating window sizes can create different types of classrooms. Articulating window types, sizes, and profiles can create an interesting facade.
	Influencer of Space and a Visual Link

CREATING AN INTERACTIVE THRESHOLD

CREATING PERSONAL COMFORTABLE SPACE

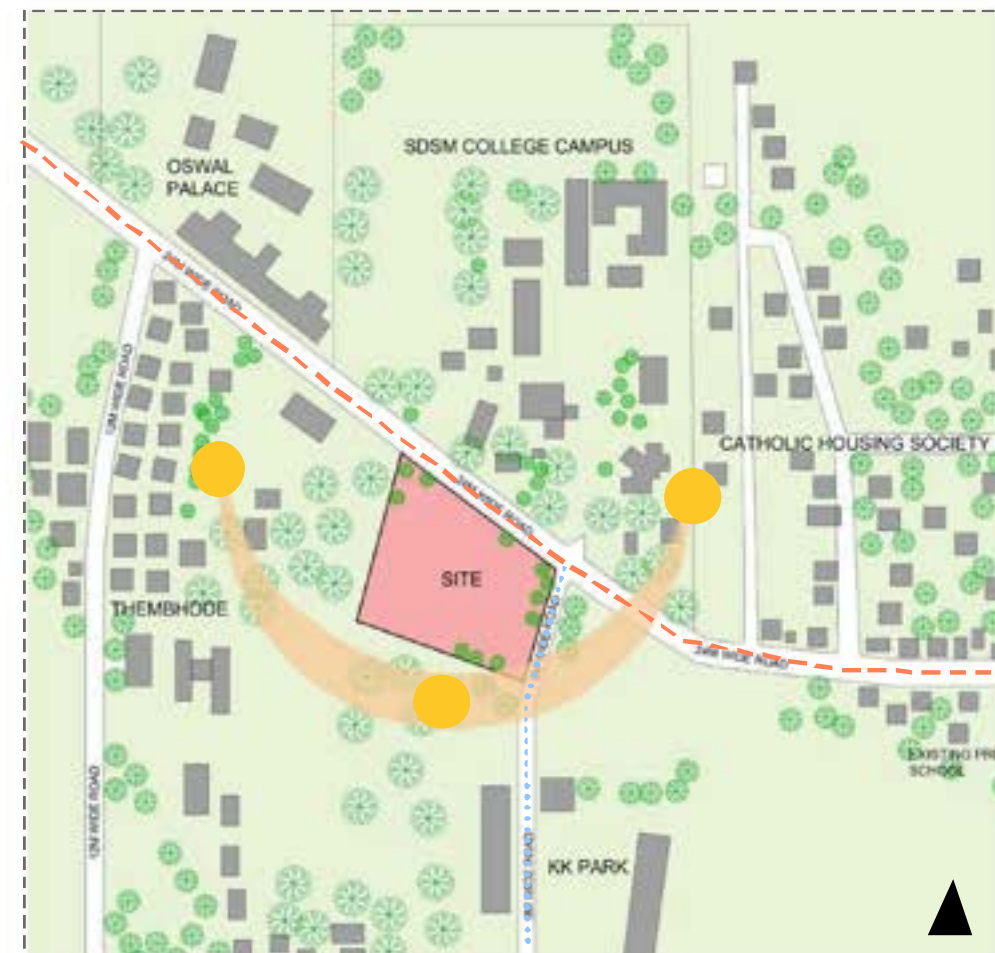

SITE :

SITE LOCATION : PALGHAR.

SITE AREA : 17942.53 Sq.m / 4.3 Ac.

CLIMATIC ZONE : HOT AND HUMID

The proposed site is located in the city of Palghar, which is situated on the western coast of Maharashtra and is seamlessly connected to Mumbai through railway and roadway. Palghar experiences a tropical climate, with hot and humid summers and mild and dry winters. Notably, Palghar is a rapidly developing city that will be influenced by the future growth of the Mumbai Metropolitan Region (MMR). Furthermore, CIDCO is actively involved in developing the New Palghar, which adds to the city's potential.

LOCATION PLAN

ELEVATION PLAN

HYDROLOGY PLAN

SLOPE ANALYSIS PLAN

The topography of the Site is relatively flat, with an gentle slope towards South Western direction.

The site has a natural flow of water in the south-western direction.

The topography of the Site gives rise to an gentle slope towards the South Western direction. The majority of the site have an gradient of about 1:100 to 1:120

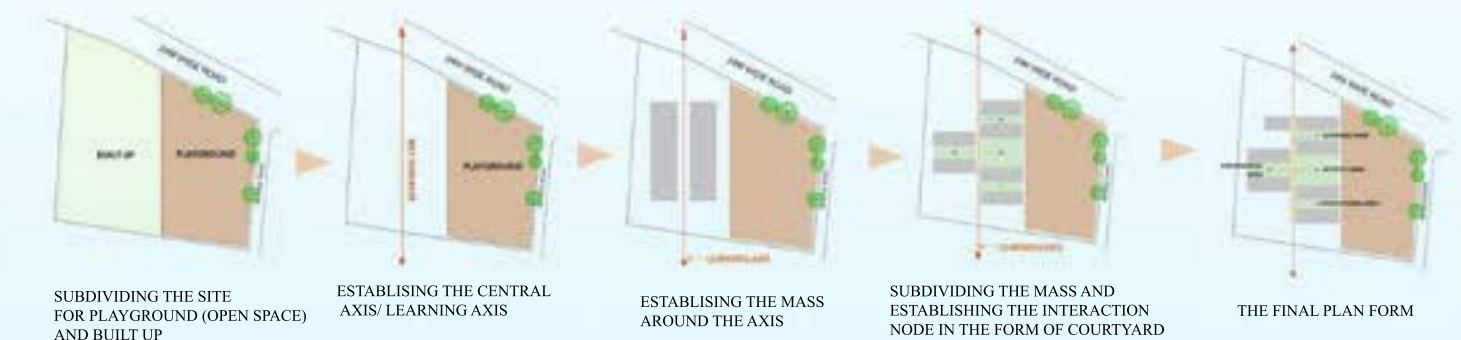

DESIGN PHILOSOPHY:

Creating a built environment, where the learning is not restricted by the boundary of the classroom, creating variation in the learning space, and generating a sense of freedom among the students. And creating a structure that becomes an identity for the surrounding context and generates a sense of belonging among the students.

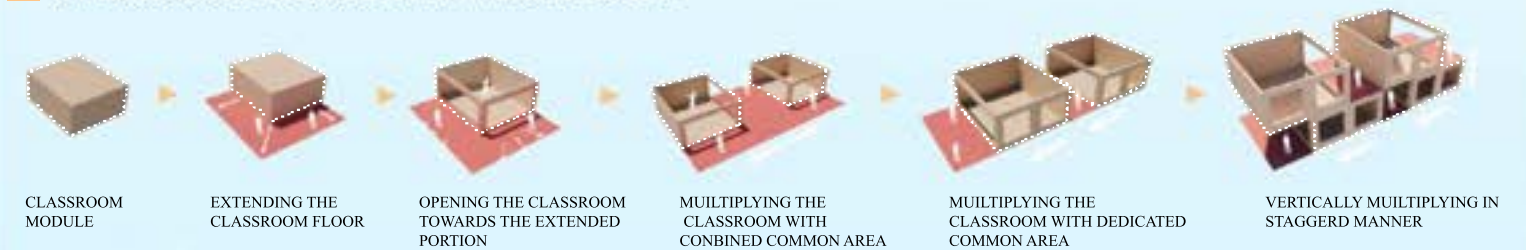

The design is based on creating four interaction nodes, around which the learning environment is created, These nodes are visualized in the form of courtyard spaces interlinked with each other through an "Learning Axis".

PEDAGOGY : STUDENT CENTERED - PLAY AND ACTIVITY BASED

Based on the pedagogy of the section the classroom are more informal in nature , there is an constant changes due to activity which are happening, so the extended classroom at pre-primary classroom were the class can happen in outdoor covered space creating an informal learning landscape were there is variation in learning space.

PEDAGOGY : STUDENT CENTERED ACTIVITY BASED

Based on the pedagogy of the section the classroom are more an combination of informal and formal nature so the extended classroom at primary classroom will becomes the space were the learning activity can happen as well as it can be an breakout space creating an learning landscape which kis formal and informal in nature were there is variation in learning spaces.

PEDAGOGY : TEACHER CENTERED LECTURE BASED

Based on the pedagogy of the section the classroom are more an combination of informal and formal nature so the extended classroom at primary classroom will becomes the space were the learning activity can happen as well as it can be an breakout space creating an learning landscape which kis formal and informal in nature were there is variation in learning spaces
